

Growth & Performance

Application

Herbal Support for Growth and Digestive Performance

Active ingredient	Target species
Allicin	Poultry
Therapeutic category	Botanical source
Growth & Performance	Garlic (<i>Allium sativum</i>)

Mechanism of action

Alisil is based on pure garlic essential oil (allicin). In the scientific literature these compounds are recognized for stimulating appetite, regulating gut microflora and supporting better feed conversion.

Benefits for the flock

- Supports the flock's natural growth
- Supports palatability and uniform feed intake
- A botanical option in the flock performance program

Safety note: The above figures are general product consumption guidelines, not a treatment protocol. Product selection, quantity, and duration of use are always determined by the flock's responsible veterinarian and the product label; these products are supportive supplements and are not a substitute for treatment or vaccines.
