

Respiratory

Application

Herbal Support for the Airways

Active ingredient	Target species
1,8-Cineole	Commercial poultry
Therapeutic category	Botanical source
Respiratory	Eucalyptus (Eucalyptus globulus)

Mechanism of action

Eucasil is built on eucalyptus essential oil with a high concentration of 1,8-cineole (together with menthol). In the scientific literature cineole is recognized for supporting airway clearance and respiratory comfort, and its nano form increases bioavailability.

Benefits for the flock

- Supports open, clean airways
- Accompanies the flock through challenging cold seasons
- A supplement to the flock's preventive respiratory program

Safety note: The above figures are general product consumption guidelines, not a treatment protocol. Product selection, quantity, and duration of use are always determined by the flock's responsible veterinarian and the product label; these products are supportive supplements and are not a substitute for treatment or vaccines.
