

Timosil

TIMOSIL

Immunity

Application

Herbal Support for Poultry Immunity

Active ingredient	Target species
Carvacrol	Poultry
Therapeutic category	Botanical source
Immunity	Thyme

Mechanism of action

Timosil combines thyme essential oil with standardized carvacrol. In the scientific literature these natural phenols are recognized for supporting the bird's innate immune response and for antioxidant and antimicrobial activity, offering supportive value during high-stress phases of production.

Benefits for the flock

- Supports flock immunity during sensitive rearing periods
- Antioxidant support under environmental stress
- Complements programs to reduce reliance on antibiotics

Safety note: The above figures are general product consumption guidelines, not a treatment protocol. Product selection, quantity, and duration of use are always determined by the flock's responsible veterinarian and the product label; these products are supportive supplements and are not a substitute for treatment or vaccines.
